

PAVEL N. KRIVITSKY
SENIOR LECTURER IN STATISTICS
SCHOOL OF MATHEMATICS AND STATISTICS
UNIVERSITY OF NEW SOUTH WALES
AUSTRALIA
p.krivitsky@unsw.edu.au
www.krivitsky.net/research

The Red Centre, Centre Wing
Room 1032
Kensington Campus
UNSW Sydney, NSW 2052
+61 (2) 9385 7022

Education

- '03-'09 **PhD in Statistics** University of Washington, Seattle, WA, USA
Thesis: Statistical Models for Social Network Data and Processes
Advisor: Mark S. Handcock
- '03-'06 **MS in Statistics** University of Washington, Seattle, WA, USA
Advisors: Adrian E. Raftery and Mark S. Handcock
- '99-'03 **BS in Biometry and Statistics, Cum Laude with Distinction in Research**
Cornell University, Ithaca, NY, USA
Thesis: The Effect of Integration Cell Size and *In Situ* Target Strength Calculation
Method on Acoustic Fish Density Estimates for Alewife Lakes of New York State
Advisors: Steven J. Schwager and Lars G. Rudstam

Positions

- 7/'20- **Senior Lecturer (US: Associate Professor) in Statistics** at University of New South Wales School of Mathematics and Statistics, Sydney, NSW, Australia
- 7/'19-6/'20 **Lecturer (US: Assistant Professor) in Statistics** at University of New South Wales School of Mathematics and Statistics, Sydney, NSW, Australia
- 7/'13-7/'19 **Lecturer (US: Assistant Professor) in Statistics** at University of Wollongong School of Mathematics and Applied Statistics and National Institute for Applied Statistics Research Australia (NIASRA), Wollongong, NSW, Australia
Confirmed (Tenured): 5/'16
- 9/'11-6/'13 **Research Associate** at Pennsylvania State University Department of Statistics, University Park, PA, USA
- 9/'09-8/'11 **Visiting Research Scientist** at Carnegie Mellon University iLab at Heinz College and Department of Statistics; and Instituto Superior Técnico Institute for Systems and Robotics, Pittsburgh, PA, USA; and Lisbon, Portugal

Publications

- Under Review **Pavel N. Krivitsky**, David R. Hunter, Martina Morris, and Chad Klumb. ergm 4.0: New features and improvements. *Under review*, June 2021 arXiv:2106.04997.

Teaching

Courses

University of New South Wales

'20 ZZSC5855: Multivariate Analysis (Online)

'19-'20 MATH5855: Multivariate Analysis

'19-'21 DATA1001: Introduction to Data Science and Decisions

University of Wollongong MATH100: Introduction to Mathematics, STAT902: Advanced Data Analysis, STAT251: Fundamentals of Biostatistics, STAT903: Model-Based Survey Design and Analysis, INF0411/911: Data Mining, STAT131: Understanding Variation and Uncertainty, MATH131: Mathematics for Primary School Teachers

External Workshops and Tutorials

European Network for Social Network Analysis Annual Conference: EUSN

'19 (with Martina Morris and Michał Bojanowski)

- Exponential-family Random Graph (ERG or p^*) Modeling with `statnet`
- STERGM—Separable Temporal ERGMs for Modeling discrete relational dynamics with `statnet`
- Introduction to Egocentric Network Analysis with ERGMs in `statnet`

International Network for Social Network Analysis Annual Conference: Sunbelt

'09-'19 (with Martina Morris, Mark S. Handcock, Steven M. Goodreau, Skye Bender-deMoll, Carter T. Butts, David R. Hunter, Michał Bojanowski, and others)

- Exponential-family Random Graph (ERG or p^*) Modeling with `statnet`
- Extending ERGM Functionality within `statnet`: Building Custom User Terms
- STERGM—Separable Temporal ERGMs for Modeling discrete relational dynamics with `statnet`
- Latent variable network Modeling with `latentnet`
- Introduction to Egocentric Network Analysis with ERGMs in `statnet`
- Valued Network Modeling with `statnet`

StatsWeek@UOW

4-5/2/'16 Social Network Analysis with `statnet` with Martina Morris

Supervision

PhD

'16- **Victoria Leaver** (part-time) (co-supervisor, with Carole Birrell primary and Robert Clark)

'16-'20 **Yue Ma** (co-supervisor, with Yan-Xia Lin primary)

MS

'20- **Christopher Shaw** (panel member from '21, with Jonathan Russell primary and Michael Kasumovic)

'15-'18 **Georgina Davies** (part-time) (co-supervisor, with Noel Cressie primary)

Honours

'21- **Marc Ishak** (primary)

'19-'20 **Zachary Edelstein** (joint, with Catherine Greenhill)

- '19 **Samuel Brown** (primary, with James Ng)
- '18 **Aidan Mison** (primary)
- '15 **Luke Mazur** (equal co-supervisor, with Thomas Suesse)

Grants

Successful

- '21-'24 **Co-Principal Investigator** on US Army Research Office Award W911NF-21-1-0237 (75549-NS)
 Title: Covert networks: How to learn as much as possible about the structure of a network from sampled subnetworks
 Principal Investigator: Michael Schweinberger
 Co-Investigator: Johan Koskinen
 Amount: 650,000 USD
- '20-'21 **Chief Investigator** on UNSW Triple I Seed Grant
 Title: Open source modelling tools to support policy decision-making throughout the COVID-19 post-pandemic phase
 Principal Investigator: Mark Hanly
 Chief Investigators: Tim Churches, Jeffrey Post, Oisín Fitzgerald, Raina MacIntyre, Louisa Jorm
 Amount: 50,000 AUD
- '18-'22 **Consultant/Co-Investigator** on US National Institutes of Health Grant R01AI138783
 Title: EpiModel 2.0: Integrated Network Models for HIV/STI Prevention Science
 Principal Investigator: Samuel M. Jenness
 Co-Investigators: Kimberly Workowski, Patrick Sullivan, Gregory Phillips II, Brian Mustanski, Michelle Birkett, Patrick Janulis, Martina Morris, Steven Goodreau, Deven Hamilton, Karen Kuntz, and Eva Enns
 Amount: 2,974,839 USD
- '18 **Awardee** on University of Wollongong Faculty of Engineering and Information Sciences Strategic Investment Grant
 Amount: 10,000 AUD
- '11-'16 **Co-Investigator** on US National Institutes of Health Grant R01HD68395
 Title: Statistical Methods for Network Epidemiology
 Principal Investigator: Martina Morris
 Co-Investigators: Steven M. Goodreau, David R. Hunter, Carter T. Butts, and Skye Bender-deMoll
 Amount: 3,040,740 USD

Pending

- '21 **Chief Investigator** on ARC Discovery Project
 Title: Missing not at random mechanisms in social network modelling
 Chief Investigators: Johan Koskinen (primary)
 Partner Investigators: Dr Lucia Falzon

Awards and Honours

- '19 **Freeman Award** by *International Network for Social Network Analysis* for significant contributions to the scientific study of social structure by a young investigator

- '19 **Richards Award** by *International Network for Social Network Analysis*
for Development of Statnet Social Network Analysis Software (with Martina Morris,
Mark Handcock, David Hunter, Steven Goodreau, and Skye Bender-deMoll)

Presentations

★ — *travel funded in whole or in part by organisers*

Keynotes

- 6–11/7/'21 ★ TBD. Freeman Award Presentation at *International Network for Social Network Analysis Annual Conference: Sunbelt XLI*, Washington, DC, USA

Invited

- 21/5/'20 Statistical Models for Bipartite Contact Networks: Methods and Data. Invited presentation at *Isaac Newton Institute Programme on Mathematical and Statistical Challenges in Understanding the Dynamics of Infectious Disease Pandemics, virtual workshop on Models Old and New*, Cambridge, UK
- 7/9/'19 ★ Some Factoids about Relational Event Models and Dynamic Network Actor Models. Invited presentation at *EUSN Satellite Meeting on Relational Event Models at ETH Zurich*, Zurich, Switzerland
- 16/7/'19 ★ Inference for Network Models based on Egocentrically-Sampled Data. Invited presentation at *International Society for Clinical Biostatistics Annual Conference*, Leuven, Belgium
- 21/3/'19 ★ Inference for Network Models based on Egocentrically-Sampled Data. Invited presentation at *Joint Statistical Meeting of the German Statistical Societies*, Munich, Germany
- 5/1/'18 ★ Exponential-Family Random Graph Models for Multi-Layer Networks (with Christopher S. Marcum and Laura Koehly). Invited presentation at *Next Generation Network Analytics Meeting at University College London*, London, UK
- 17/12/'16 ★ Modeling and Simulation of Dynamic Networks using Egocentrically-Sampled Data (with Martina Morris and others). Invited presentation at *Isaac Newton Institute Programme Theoretical Foundations for Statistical Network Analysis, workshop on Dynamic Networks*, Cambridge, UK
- 1/8/'11 A Separable Model for Dynamic Networks (with Mark S. Handcock). Invited paper at *American Statistical Association Joint Statistical Meeting*, Miami Beach, FL, USA
- 16/6/'11 Latent Space Cluster Models for Social Networks. Invited paper at *Classification Society Annual Meeting*, Pittsburgh, PA, USA
- 11/1/'11 A Separable Model for Dynamic Networks (with Mark S. Handcock). Invited presentation at *SAMSI Complex Networks Modeling Workshop*, Research Triangle Park, NC, USA

Refereed

- 3/12/'15 Inference and Simulation for Dynamic Network Models from Egocentrically Sampled Data. Contributed paper to *MODSIM 2015: 21st International Congress on Modelling and Simulation*, Gold Coast, QLD, Australia
- 7/12/'12 Fitting Dynamic Network Models to Static Network Data. Poster presentation at *Neural Information Processing Systems Conference, Workshop on Algorithmic and Statistical Approaches for Large Social Networks*, Lake Tahoe, NV, USA
- 10/6/'11 Network Neighbor Effects on Customer Churn in Cell Phone Networks (with Pedro M. A. Ferreira (presenter), Rahul Telang). Contributed paper to *Seventh Symposium on*

Statistical Challenges in Electronic Commerce Research (SCECR 2011), Rio de Janeiro, RJ, Brazil

12/12/08 Adjusting for Network Size and Composition Effects in Exponential Family Random Graph Models (with Mark S. Handcock and Martina Morris). Poster presentation at *Neural Information Processing Systems Conference, Workshop on Analyzing Graphs*, Whistler, BC, Canada

Recent External Seminar

- 4/9/19 ETH Zurich, Zurich, Switzerland
- 22/2/19 The University of Sydney, Sydney, NSW, Australia
- 29/11/18 Australian National University, Canberra, ACT, Australia
- 17/8/18 The University of Sydney, Sydney, NSW, Australia
- 5/7/18 ETH Zurich, Zurich, Switzerland
- 15/5/18 Kirby Institute, University of New South Wales, Sydney, NSW, Australia
- 10/1/18 University of Groningen, Groningen, Netherlands
- 8/1/18 Hasselt University, Hasselt, Belgium

Other Recent

- 26/11/20 It's Models all the Way Down: Operator Terms and other Building Blocks for Specifying Increasingly Complex Network Models. Presentation at *Australian Social Network Analysis Conference*, Online
- 26/10/20 Self-Marking R Code in Moodle with CodeRunner. Presentation at *UNSW School of Mathematics and Statistics Learning and Teaching Seminar*, Online
- 16/7/20 Impact of Egocentric Survey Design on Estimable Network Features (with Michał Bojanowski and Martina Morris). Presentation at *International Network for Social Network Analysis Annual Conference: Virtual Sunbelt 2020*, Online
- 12/12/19 LyX and knitr: Using Literate Programming to Prepare Lecture Materials for Statistics. Presentation at *2019 Mathematical Educational Software Interest Group (MESIG) Meeting*, Sydney, NSW, Australia
- 29/11/19 Impact of Egocentric Survey Design on Estimable Network Features (with Michał Bojanowski and Martina Morris). Presentation at *Australian Social Network Analysis Conference: ASNAC 2019*, Adelaide, SA, Australia
- 9/9/19 Representativeness and Generalisability of Inference for Exponential-Family Random Graph Models from Samples of Networks (with Pietro Coletti and Neil Hens). Presentation at *European Conference on Social Networks: EUSN 2019*, Zurich, Switzerland
- 20/6/19 Representativeness and Generalisability of Inference for Exponential-Family Random Graph Models from Samples of Networks (with Pietro Coletti and Neil Hens). Presentation at *International Network for Social Network Analysis Annual Conference: Sunbelt XXXIX*, Montreal, QC, Canada
- 28/11/18 Representativeness and Generalisability of Inference for Exponential-Family Random Graph Models from Samples of Networks (with Pietro Coletti and Neil Hens). Presentation at *3rd Australian Social Network Analysis Conference*, Canberra, ACT, Australia
- 30/6/18 Exponential-Family Random Graph Models for Many-Layer Networks (with Christopher S. Marcum and Laura Koehly). Presentation at *International Network for Social Network Analysis Annual Conference: Sunbelt XXXVIII*, Utrecht, Netherlands

Administration

University of New South Wales

- '20– **Coordinator** of the UNSW School of Mathematics and Statistics Co-Op Program.
- '19– **Statistics Representative** on the UNSW School of Mathematics and Statistics Computing Committee.

University of Wollongong

- '16–'19 **Statistician** on the University of Wollongong Animal Ethics Committee.
- '18 **Member** of the School of Mathematics and Applied Statistics Research Committee.
Member of the School of Mathematics and Applied Statistics Statistical Science Lecture Committee.
- '17 **Academic Program Director** of the Bachelor of Medical Mathematics Program.
- '16 **Academic Program Director** of the Masters in Statistics Program.
Chair of the School of Mathematics and Applied Statistics Awards Committee.
Member of the School of Mathematics and Applied Statistics Internationalisation Committee.
- '14–'16 **Member** of the School of Mathematics and Applied Statistics Computing Committee.
Seminar Convener for the National Institute for Applied Statistics Research Australia.

Service

Software

- Statnet Project **contributor ('07–) core developer ('08–)** an open-source project to develop a suite of R packages for analysis and statistical modelling of network data.
<http://www.statnet.org>
- ergm **contributor ('07–) core developer ('08–) maintainer ('12–)** an R package in the statnet suite for fitting, visualization, and diagnosing of exponential random graph models (ERGMs).
<http://cran.r-project.org/package=ergm>
- tergm **creator ('12–)** an R package in the statnet suite for fitting, visualization, and diagnosing of dynamic network models based on ERGMs.
<http://cran.r-project.org/package=tergm>
- ergm.count **creator ('12–)** an R package in the statnet suite extending ergm to fit and simulate ERGMs for networks of counts.
<http://cran.r-project.org/package=ergm.count>
- ergm.rank **creator ('16–)** an R package in the statnet suite extending ergm to fit and simulate ERGMs for networks of ranks.
<http://cran.r-project.org/package=ergm.rank>
- ergm.ego **creator ('16–)** an R package in the statnet suite extending ergm to fit and simulate ERGMs for egocentrically sampled data.
<http://cran.r-project.org/package=ergm.ego>
- latentnet **core developer, maintainer ('05–)** an R package in the statnet suite for fitting latent space and latent cluster models to binary and weighted networks.
<http://cran.r-project.org/package=latentnet>

- networkDynamic **contributor** ('12–) an R package in the statnet suite for storing and processing dynamic network data.
<http://cran.r-project.org/package=networkDynamic>
- rle **creator** ('20–) an R package providing common functions for run-length encoded vectors.
<http://cran.r-project.org/package=rle>
- egor **co-creator, contributor** ('18–) an R package for importing, analyzing and visualizing ego-centered network data.
<http://cran.r-project.org/package=egor>
- Yet Another Bayes's Rule Applet **creator** ('12–) an interactive Java applet illustrating the Bayes's Rule.
<http://www.krivitsky.net/teaching/BayesRule.html>

Organisational

- '21–'22 **Organising Committee** of the International Network for Social Network Analysis Sunbelt Conference 2022 (Cairns, QLD, Australia).
- '20 **Chair** of the International Network for Social Network Analysis Freeman Award Committee.
- Program Committee** of the International Network for Social Network Analysis COVID-19 Satellite Meeting.
- '19 **Chair** of the International Network for Social Network Analysis Best Student Paper Award Committee.
- Co-Organiser and Chair** of the International Network for Social Network Analysis Sunbelt Conference Session on Inference and Generalisability in Modelling Samples of Networks and Multi-Level Networks.
- Co-Organiser and Co-Chair** of the International Network for Social Network Analysis European Social Networks Conference (EUSN) Session on Inference and Generalisability in Modelling Samples of Networks and Multi-Level Networks.
- '12 **Co-Organiser and Co-Chair** of the 2012 Neural Information Processing Systems Workshop on Algorithmic and Statistical Approaches for Large Social Networks.
